

So,  
you're making  
the transition to a  
*natural deodorant?*  
(That's exciting!)

## THE STAGES OF DETOX

When we make the transition over to a natural deodorant our body will go through various levels of odor-causing bacteria. This graph shows us what is to be expected.  
*Reapply as needed.*

(That's exciting!)

## THE STAGES OF DETOX

When we make the transition over to a natural deodorant our body will go through various levels of odor-causing bacteria. This graph shows us what is to be expected. It is in week 2 and 3 that we can experience "breakthrough odor" as our sweat glands are detoxing from built-up toxins. **Simply, reapply as needed.**
